EOSH UK Certified · Beginner Friendly · Live Tutor-led Classes · QR-Verified Certificate & Transcript

ABOUT THE PROGRAMME

Your first, solid step into a career in safety

The EOSH UK Level 3 Diploma in OHS / HSE builds the core knowledge every safety professional needs: how to spot hazards, assess risk, investigate incidents and build a positive safety culture. It suits complete beginners as well as working professionals who already carry safety duties.

EOSH UK certified

Awarded by EOSH UK (Environmental Occupational Safety & Health). Successful learners receive a certificate and unit transcript, each with a unique number and QR verification.

Practical, not just theory

Alongside the official syllabus, our trainers run hands-on sessions: risk assessment writing, toolbox talks, permit-to-work, ISO 45001 awareness and HSE interview preparation.

International by design

Built on UK good practice, with ILO principles and ISO 45001 referenced throughout — so your learning is relevant in India, the GCC, Europe, Africa and Asia.

How you learn

Live, tutor-led online classes with experienced HSE trainers, plus 24/7 LMS access to study material, recorded classes, assignments and assessments.

ABOUT BRAMOSH GLOBAL

Bramosh Global Institute OPC Private Limited is an internationally focused online institute approved by reputable awarding and accreditation bodies, delivering programmes in HSE, ISO, ESG, Oil & Gas Safety, Food Safety, Business Leadership, MBA and DBA. CURRICULUM

The 5 core modules

The official EOSH UK syllabus. Each module is assessed at Level 3 and listed on your unit transcript.

01 MODULE

E-OH 141

Introduction to Occupational Health & Safety

Key definitions; the moral, legal and financial reasons to manage safety; duties of employers and workers; welfare; and the main causes of injury and ill health at work.

02 MODULE

E-RM 142

Risk Assessment and Management

The five steps of risk assessment, rating risk with a likelihood × severity matrix, deciding what is acceptable, recording findings and reviewing them as work changes.

03 MODULE

E-HI 143

Hazard Identification and Control Measures

Physical, chemical, biological, ergonomic and psychosocial hazards; inspections and checklists; choosing controls with the hierarchy of control, from elimination to PPE.

04 MODULE

E-AR 145

Accident Investigation & Reporting, Emergency Response & Preparedness

Reporting near misses and accidents, finding immediate and root causes, writing corrective actions, and planning for emergencies, evacuations and drills.

05 MODULE

E-HS 144

Health and Safety Culture and Communication

Building a positive safety culture: leadership, worker involvement, toolbox talks, safety committees, signs and notices, training and competence.

ONLY AT BRAMOSH GLOBAL

Value-added practical sessions

01
Writing a workplace risk assessment, step by step

02
Conducting toolbox talks & safety briefings

03
Permit-to-work and lockout / tagout basics

04
ISO 45001 awareness for new safety professionals

05
HSE CV and interview preparation

SPECIAL SESSION

Internal Audit

Audit purpose and planning, checklists, collecting evidence, recording non-conformities and following up corrective actions — a strong first step towards ISO auditor roles.

SPECIAL SESSION

Sustainability

Sustainability and ESG basics, the environmental impact of work activities, waste reduction, and why employers expect safety teams to support sustainability goals.

DELIVERY & ASSESSMENT

Learn. Practise. Get certified.

A clear three-month plan keeps you on track, while the LMS lets you study whenever it suits you — around work and family.

MONTH 1

Foundations

Module 1 Introduction to OHS and Module 2 Risk Assessment & Management. Practical: writing a workplace risk assessment.

MONTH 2

Control & response

Module 3 Hazard Identification & Control and Module 4 Accident Investigation & Emergency Response. Practical: permit-to-work and LOTO.

MONTH 3

Culture & certification

Module 5 Safety Culture & Communication. Special sessions on Internal Audit and Sustainability, toolbox talks, ISO 45001 awareness, CV & interview prep and final assessments.

WHAT YOU WILL BE ABLE TO DO

- Explain why health and safety matters and who is responsible for what
- Carry out and record a risk assessment using a recognised method
- Recognise common hazards and choose practical controls
- Report incidents, find root causes and support emergency plans
- Communicate safety through talks, briefings and committees
- Support internal audits and link safety with sustainability goals

What's included

- 5 EOSH UK syllabus modules & study material
- Live tutor-led online classes
- 24/7 LMS with recorded classes
- 5 value-added practical sessions
- Special sessions: Internal Audit & Sustainability
- Tutor feedback & internal quality assurance
- EOSH UK certificate & unit transcript

ROLES YOU CAN AIM FOR

Safety Officer

Inspections, risk assessments and day-to-day site safety

HSE Assistant

Records, training, permits and incident reporting support

Safety Coordinator

Toolbox talks, safety committees and contractor safety

Career outcomes depend on individual experience, employer requirements and local regulations.

CERTIFICATION

Your EOSH UK certificate
